CARDIO301 Clinical Documentation Form

Participant Visit Scenario

Participant C0301-105 attended Visit 3 (Week 4) on November 1, 2023. The visit was assessed by J. Chen, CRC. Blood pressure was 128/82 mmHg, heart rate was 72 bpm, and weight was 175 lbs. The participant reported mild fatigue consistent with baseline, with no new findings. A routine review was performed. No adverse event was reported.

Learner Instructions

Complete every incomplete field using the participant visit scenario and ALCOA principles. The form contains two intentional errors. Correct each error by drawing a single line through the incorrect value so it remains readable, then add your initials, the correction date, and a brief reason in the Notes/GCP Comments column. Do not erase or obscure the original entry.

Field Name	Value	Notes/GCP Comments
Participant ID	C0301-105	Verified against visit source record. JC
Visit Number	Visit 3 (Week 4)	Verified against visit schedule: Visit 3 = Week 4. JC
Visit Date	2023-11-01	Recorded on the day of the visit. JC
Assessor Name	J. Chen, CRC	Name and role recorded (attributable).
Blood Pressure	128/82 mmHg	Verified against source; units recorded. JC
Heart Rate	72 bpm	Verified against source; units recorded. JC
Weight	~~170 lbs~~ 175 lbs	Corrected 170 lbs to 175 lbs. Reason: transcription error; source record shows 175 lbs. JC 2026-11-10
Clinical Observations	Participant reports mild fatigue consistent with baseline. No new findings. Routine review performed.	Recorded as reported by participant at the visit. JC
Adverse Event Status	~~Yes~~ No	Corrected "Yes" to "No". Reason: entry error; no adverse event reported, fatigue consistent with baseline. JC 2026-11-10
Assessor Signature and Date	*J. Chen*, CRC 2023-11-01	Signed and dated by the assessor on the visit date.

Training note: This synthetic starter file intentionally includes incomplete fields and two inaccurate entries for learners to identify and correct.
