CARDIO-301 SharePoint Folder Structure Guide

Use this guide to organize the site readiness package before the **Site Initiation Visit (SIV)**. Store documents only in the approved study workspace and follow your organization's access, version-control, and naming procedures.

Folder	Suggested Contents
01_Regulatory Compliance	Completed Regulatory Compliance Checklist; supporting regulatory documents; delegation log copy/reference
02_IRB Documents	IRB approval letters; current protocol; approved ICF; approved recruitment/participant-facing materials; IRB correspondence
03_Clinical Documentation	Completed Clinical Documentation Form; approved source templates/worksheets; visit documentation tools
04_Informed Consent	Completed Consent Elements Verification; current IRB-approved consent; translated consent documents if applicable
05_SIV Readiness	SIV agenda; outstanding action list; training completion evidence; readiness notes

Suggested file-naming convention

CARDIO301_[DocumentType]_[Version-or-Date]_[SiteNumber]

Example: CARDIO301_Regulatory_Compliance_Checklist_v1.0_20250601

Before the SIV
Confirm that each file is the current version, clearly named, stored in the correct folder, accessible to authorized study staff, and free of duplicate or obsolete working copies in the readiness package.
